

NIPR PRODUCER DATABASE ACCESS

The National Insurance Producer Registry (“NIPR”) owns, maintains and operates the Producer Database (“PDB”) which contains licensing and regulatory information on insurance companies and producers.

Information obtained from the PDB constitutes a consumer report subject to the Fair Credit Reporting Act, 15 U.S.C. § 1681 et seq. (“FCRA”), as amended. Information in the PDB includes information on regulatory actions, licensing status and other information involving a producer’s character, general reputation or personal characteristics

NIPR allows companies access to information in the PDB through a license agreement. As a requirement of the license agreement, companies must have a permissible purpose pursuant to FCRA Section 604 to access the information. In addition, companies are required to comply with the all applicable terms of the FCRA.

Prior to executing the NIPR License Agreement, the Licensee shall certify that it has a permissible purpose to obtain the PDB data. Once this certification form has been completed and processed, Licensee’s will receive a copy of the applicable NIPR License Agreement for execution.
